**NOTICE OF CONSTRUCTION:
CC2019-05 AVENIDA ENTRADA ET AL STREET IMPROVEMENT PROJECT**

You are cordially invited to attend the meeting scheduled for **Thursday, July 25th, 2019 at 6:30 pm at the Via Verde Country Club located at 1400 Avenida Entrada in the City of San Dimas.** Members of the Public Works Department and the project's contractor, Gentry Brothers, Inc. will provide a project overview, projected schedule, and will address any questions or concerns that may arise. For any questions please contact the City's Public Works Department at (909) 394-6240 or via email at publicworks@ci.san-dimas.ca.us. Weekly construction updates and more information on the project can be found at <https://sandimasca.gov/cip/>

Project improvements Include:

- Reconstruction of the asphalt pavement section that will provide an aesthetically pleasing, smoother and quieter street surface.
- Avenida Entrada will make use of environmentally friendly Full-Depth-Reclamation (FDR) which recycles the existing asphalt concrete and underlying aggregate base/soil material. The existing pavement will be pulverized or crushed, mixed with cement, rolled into a stronger sub-base, allowed to cure and then paved to create a total depth of 11.5 inches.
- Concrete Improvements include cross gutter and ADA compliant wheel chair ramps.
- This Project is funded from SB 1 (Road Repair and Accountability act of 2017), measure R and general funds in the amount of \$1,100,000.

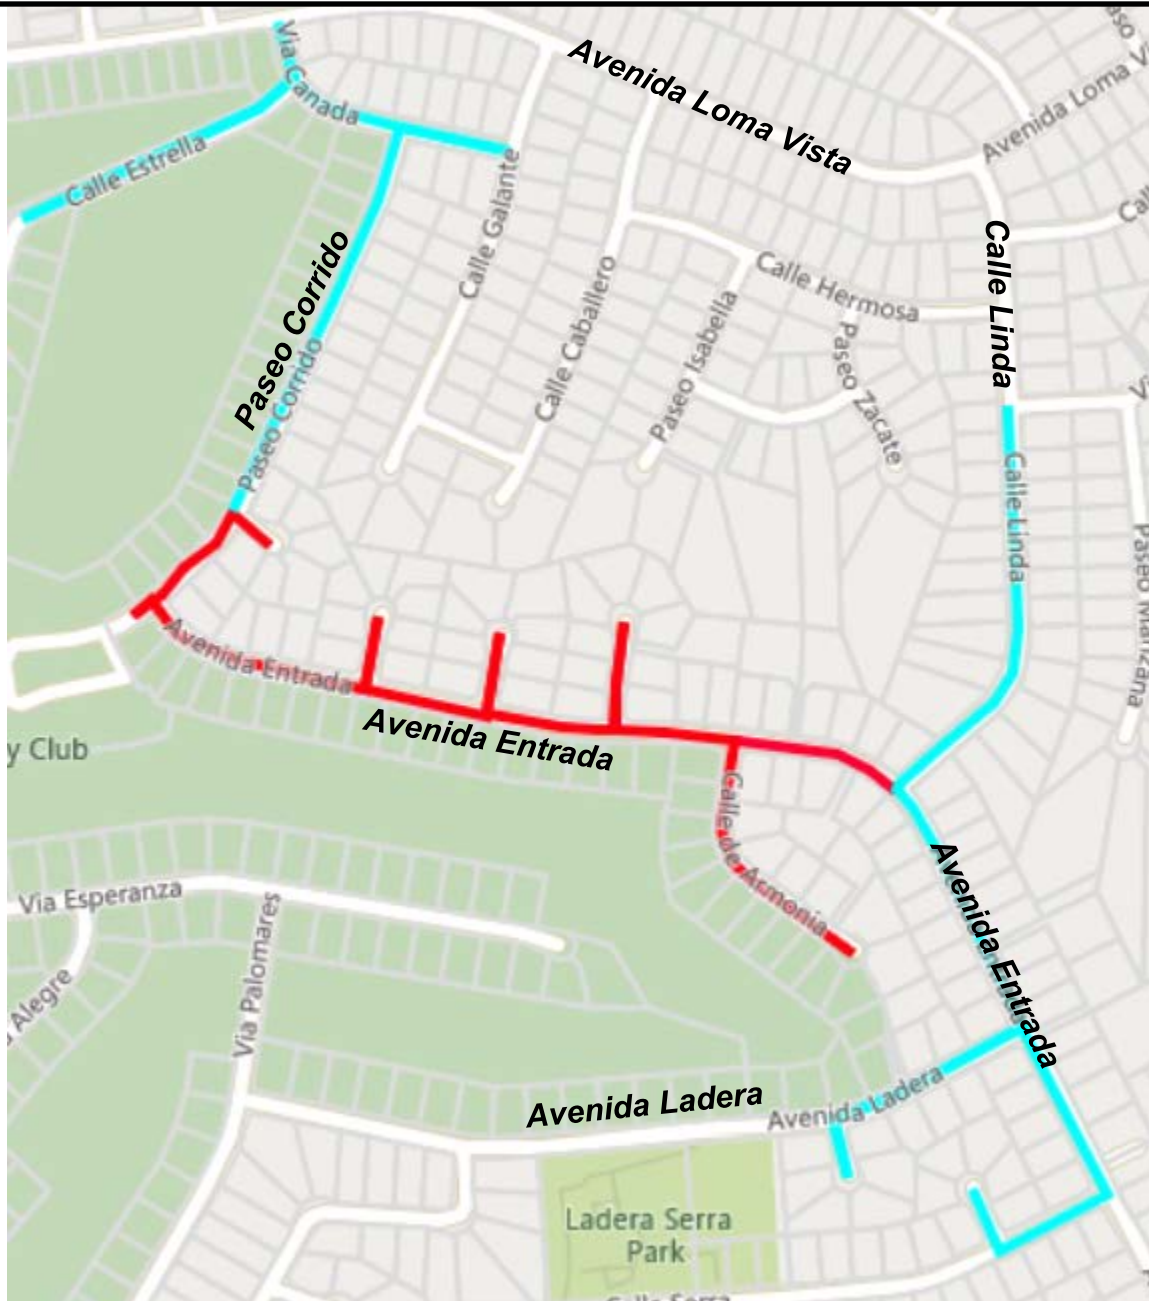

During Construction:

- Please place trash cans at curb Monday night for early Tuesday morning pick up.
- Overnight Parking restrictions will be waived during the project, see reverse side for parking areas.

Construction is anticipated to start July 29th, 2019 and will take approximately three months. During construction, there will be temporary traffic impacts. Traffic will be reduced on Avenida Entrada to one lane in one direction. This is necessary to provide a safe work zone and to allow the space required for quality workmanship. There will be times that driveway access is restricted. You will be notified in advance when this is necessary. The City and its Contractor will work to minimize inconvenience as much as possible. Your cooperation will help reduce the duration of the construction and allow the contractor to expedite the reconstruction work.

While the short term construction impacts are temporary and inconvenient, its benefits are expected to last for years to come. We would like to thank you in advance for your patience and cooperation during construction.

Alternate Overnight Parking Available to Residents During the Duration of the Construction Project. Overnight Parking Permit Requirements Waived for the Highlighted Area.

-  Parking availability will be phased during construction and may not be available at all times. Please adhere to all construction signage.
-  Parking located outside of project area and will be available to residents affected by project construction.
