- Last night's earthquake was a reminder that they can happen at any moment, and its crucial to be prepared. The MyShake mobile app can detect earthquakes before you feel them, giving you a little extra time to drop, cover, and hold on. Apple and Android mobile device users can download the app here: <https://earthquake.ca.gov/mobile-application/>
 - Additionally, if you find yourself behind the wheel during an earthquake, remember to slow down, look for an open area to stop, and pull over as soon as it is safe to do so. It would be best if you remained in the vehicle with your seat belt fastened, engine off, and parking brake set
 - Putting together your emergency kit? Click <https://lacounty.gov/emergency/earthquake-preparedness/> for what you should include
- If you or someone you know has tested positive for COVID-19 and does not have room to self-isolate, call the Department of Public Health at (833) 540-0473 from 8 am – 8:30 pm to get a FREE hotel room
- LA County announced that \$15 million in CARES Act funding had been allocated for child care vouchers to serve essential workers and low-income families in the County. This allocation translates to three months of child care for 5,000 families. **Families seeking early care and education services may access vouchers by calling 888-92-CHILD (888-922-4453).** The state sets income eligibility for these vouchers
- The Los Angeles County Health Officer has issued a Heat Alert as high temperatures have been forecast for the following areas:
 - Antelope Valley – through Monday, August 3
 - West San Fernando Valley –through Sunday, August 2
 - East San Fernando Valley –Friday, July 31, through Saturday, August 1
 - West San Gabriel Valley – Friday, July 31
 - East San Gabriel Valley - through Saturday, August 1
 - Santa Clarita Valley - through Saturday, August 1
 - Public Health reminds everyone to take precautions to avoid heat-related illness, especially older adults, young children, outdoor workers, athletes, and people with a chronic medical condition who are especially sensitive to adverse health impacts from extreme heat
